# SitTable

Design by Ben van Berkel, UNStudio

- Designed to enable various modes of work
- Sit close together for co-working or spread out for individual working
- Innovative alternative to a traditional table

# BeTweeN

Design by Studio Makkink & Bey

- Multifunctional workstation that adds a playful element to any space
- Use as a landmark, room divider or separately as a desk, chair and side table
- Tree-like structure that encourages engagement

# StandAlone

Design by AXIA Design

- A retreat from the open office floor
- Overhead roof and side panels provide sense of privacy
- Clever addition to any workspace

# Prooff

# JoinTable

Design by Bert Masselus

- Fosters conversations in an informal way
- Plays with sitting and standing, indoor and outdoor use
- Accommodates meetings and workspace for several people

# OffSize

Design by Léon de Lange

- Playful elements make for a surprising addition to any space
- Bringing comfort to impromptu meetings and random encounters
- Helps to foster connection and collaboration

# EarChair

Design by Jurgen Bey, Studio Makkink & Bey

- Creates an intimate setting in sets of two or four
- Extended ears provide cocoon-like insulation
- Ideal place for a meeting or a quick chat

# StandTable

Design by Ben van Berkel, UNStudio

- Accommodates individual working, scrum meetings and short discussions
- Stimulates movement at work
- Beacon of collaboration and engagement in every office

# PhoneBox

Design by AXIA Design

- Offers a sense of privacy in the office
- Outside noises are muffled as to enhance focus
- Simple and compact design makes it functional in use

# SideSeat

Design by Studio Makkink & Bey

- Compact workstation equipped with the essentials
- A self-contained desk, cupboard and swivel chair in one
- Moveable piece of furniture to shape any workspace

# WorkSofa

Design by Studio Makkink & Bey

- Primary function as a communal meeting point
- Focal piece that facilitates dialogue and discussion
- Customisable for any space

# Niche

Design by AXIA Design

- Functions as a room within a room
- Engineered to stimulate collaboration
- Alternative to a closed-off meeting room

The way we work is changing significantly. For the past 10 years, we at PROOFF have been motivated by Activity Based Working (ABW) and have explored trends in the evolving workspace. Collaborating closely with designers, (interior) architects and strategists, we have designed 10 modular and multifunctional furniture concepts that champion health and wellbeing, encourage collaboration, and enhance efficiency in the workplace. We believe that when given the right tools, people can be inspired to create their very best work.

Shaping the future of work together.
