### BETHAN GRAY BAND COLLECTION

---

Bethan Gray has been inspired by pairing the natural beauty of coloured marble together with warm brushed brass to create her Band range of tables. For this range, solid marble is encased in a warm and elegant metallic rim to bring a distinctive, contemporary aesthetic to such a timeless material.

The Band range is available with single colour marble tops or two tone options from the palette, which include the beautiful and sophisticated Rosa marble and a timeless Verde marble. Handcrafted techniques are then used to combine selected marbles in a striking and graphic pattern.

Bases are powder coated in colours from the palette and combined with precision machined brass feet, hand brushed and finished by our craftsmen.

### APPLICATIONS

---

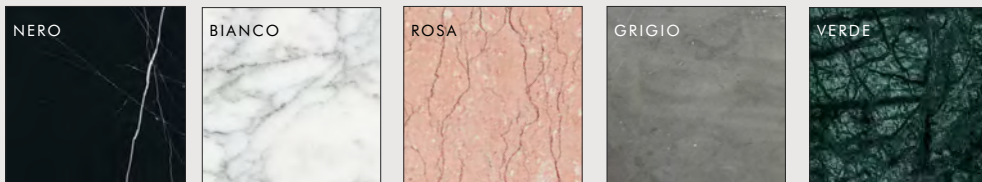

The Band range of tables consist of specially selected European marbles which are cut, polished and then lacquered with a protective finish to give a durable and stain-resistant surface, and are thus most suitable for high traffic areas or contract use.

This versatile collection has been designed to be used in residential development as well as the hospitality sector, and also for visual merchandising in retail. Each leg can be detached and re-attached securely, for ease, and to reduce the cost of transportation.

### MARBLE

---

Specially selected European marbles that complement our overall palette are cut, polished and then lacquered.

### CONTRACT SPECIFICATIONS

---

All pieces are available in honed or polish finish. As standard all of the marble is supplied polished apart from the pink which is honed

### BESPOKE SIZING

---

Our versatile collection is often adapted and customised to meet exact needs. Please see Dimensions page for further information.

### LEAD TIME

---

8 -10 weeks.

### RECOMMENDED CLEANING INSTRUCTIONS

---

Dist regularly with a soft cloth (we recommend a microfiber one) and use warm, distilled water to clean from time to time – especially after contact with food – and then use another cloth to dry the surface. For the brass band and feet, periodically clean the fixture with mild liquid soap or by applying Brass ProTech (98000) with a soft clean cloth to gently remove surface spots.

### POWDER COATED LEGS

---

Legs are powder coated in colours from the palette to complement the marbles chosen.

### METAL DETAILING

---

Brass is used in combination to encase the marble, as well as on the feet to give a distinctive warm and contemporary feel to the piece.

## EXAMPLES OF SOME POSSIBLE COLOUR COMBINATIONS FROM OUR PALETTE

### COLOUR SUGGESTIONS

---

Bethan has recently explored how one palette can contain both soft, muted, warm and feminine elements as well as having very rich, deep, highly pigmented and sophisticated colours too. Drawing initial inspiration from the more unusual varieties of stone, such as deep greens and soft pink marble.

The Band collection of tables is available in single or two-tone combinations of marble from this palette.

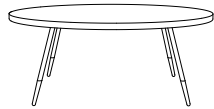

Please see some examples above of different colours combinations - however please note our carefully selected palette allows any combination of colours to work.

## DIMENSIONS

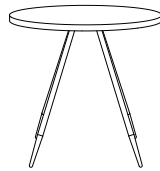

---

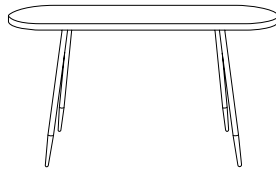

Side Table  
D460 X H560mm

Coffee Table  
D1000 X H420mm

Dining Table  
D800 X H750mm

Console Table  
L1350 X W450 X H750

## BESPOKE SIZING

---

Our versatile collection allows for easy customisation to meet exact needs. The pieces have been designed with tailoring for the Interior Design and A&D markets in mind. As each of our pieces are handmade, both top size and leg height can be adjusted at a small surcharge.

For larger contract orders, we are able to also adjust the level of detailing and other work to meet budget requirements.
