Applications

Residential: In the city, roof terraces are the most sought-after places. Whether you put a sunbed on a private terrace or beside the swimming pool on the top floor of a hotel, don't you want to be able to use the space it takes up in the evening as well?

Project: on terraces, patios, pools, rooftops, wellness and spa's. What kind of furniture is most suitable next to your pool? Now you have the option of having both sunbathing and lounging furniture at the same time.

Sol+Luna comes in two versions. The southern version, **Australis**, is clean and architectural, perfect for modern buildings, urban environments, boutique hotels, design hotels, ... whereas the northern version, **Borealis**, has a somewhat more organic look, perfect for rural environments, tropical resorts, cottage style gardens, ...

Double function: day bed for 1 and night sofa for 3.

F.a.q.

Q: Can I alter the side of the backrest after assembly?

A: You can choose the side at which the backrest has to be placed while assembling. The place can be changed afterwards, but you'll need tools for that.

Q: Can the cushions stay outside?

A: Yes, but we recommend to store the cushions inside when not used.

Q: What is the difference between Australis and Borealis?

A: The design of the legs is different. Australis has a clean and architectural look, whereas Borealis has a more organic look with curved lines.

Q: Do I need to use cover caps on the legs?
