Concept

The reflections of the Venetian cityscape glistening the evening water hints at an imaginary city below the moving surface. There is a border between the world under and the land above. In the city of Venice, where the real world and fantasy coexists, this chandelier is the embodiment of the beauty of dual worlds.

'Flow[T]' is a contemporary chandelier inspired by the colours of the Venetian lagoon and customized to the desires of each owner. Each piece enjoys its own shape, and in multiples, they create a sculptural display of lighting.
